OFFERED IN THE SENATE.

Amendment to the House Railroad Rate Bill.

Washington, April 3.—The amendment to the house railroad rate bill, agreed upon at the White House Saturday by friends of the bill, providing for a limited review of orders of the interstate commerce commission, was offered in the senate during the day by Mr. Long of Kansas, but he was not able to get the floor to make his speech on the bill.

The principal speech during the day was made by Mr. Fulton of Oregon, who spoke for the bill. It was a legal argument bearing upon the constitutional questions involved in the legislation and interruptions were so frequent that the speech amounted to a debate on law points, where the speaker divided time with a majority of the lawyers of the senate.

Mr. Nelson of Minnesota and Mr. Heyburn of Idaho made brief speeches on the bill.

PERSONAL LIABILITY BILL.

Members of the House Show Great Interest in the Measure.

Washington, April 3.—Chief among the measures passed by the house during the day was the so-called "personal liability bill" which has been favored by the army of railway employees throughout the country, and which had practically a unanimous report from the committee. Members of the house showed great interest in the measure and had a division been called for the bill would have had an almost unanimous vote.

Another measure changing existing law which excited a filibustering opposition was the bill permitting the fortification of sweet wines and levying a tax of three cents a gallon on all wines thus fortified. A number of bills were passed under suspension of the rules.

Call on the President of Cuba.

Havana, April 3.—Mrs. Roosevelt and her children, Ethel, Archie and Quentin Roosevelt, called on President Palma during the day. President Palma sent a state coach to the wharf to receive Mrs. Roosevelt and the children, and an aide de camp escorted them to the palace.

## NO STRIKE OF MINERS

THOSE IN THE PITTSBURG DISTRICT WILL CONTINUE TO DO THEIR WORK.

HAVE SIGNED WAGE SCALE

SEVERAL COAL MINING COMPANIES AGREE TO PAY ADVANCE DEMANDED.

Pittsburg, April 3.—There will be no strike of the bituminous miners in the Pittsburg district, and, according to Francis L. Robbins of the Pittsburg Coal company, there will be a general resumption of work in the morning, following the holiday celebration of the eight-hour day. Mr. Robbins officially announced at night that he had signed the scale of 1903, and among the other signers were the Monongahela River Consolidated Coal and Coke company, the Ellsworth Coal company, the Crescent Coal company, the Milfin Coal company, the People's Coal company, the Marine Coal company, the Steam Coal company, the Vesta Coal company, the Dilworth Coal company, and the Mansfield Coal and Coke company. These companies represent 30,000,000 tons, or over three-quarters of the coal mined in the Pittsburg district.

The scale was signed for the miners by William Dodds, Frank Feehan, F. P. Hannoway and William Little, the committee appointed by the district convention.

While the operators and the miners' committee were in session during the day it was reported that Patrick Dolan would raise the question of validity of the scale, and that as a measure of precaution, Mr. Robbins would sign two scales identical in their provisions. Mr. Robbins said that but one scale would be signed by anyone, and that was the one signed during the day, presented by the committee, which the operators recognized as an officially appointed committee.

Refuse to Sign the Scale.

The mines of the independent operators will be shut down during the day in the Pittsburg district in conjunction with those in Ohio, Indiana and Illinois. The independent operators met in this city at night and at 10:30 adjourned after passing a resolution to support the operators of the forenamed states in refusing to sign the scale.

The independent operators announced that their mines would not be operated during the day under any consideration and that under no circumstances would the mines be run as nonunion plants.

In other districts throughout Western Pennsylvania the situation was about as pacific as that in the Pittsburg district. Beaver county operators have signed the scale; the indications from the Clearfield district are that when the miners meet the operators in joint conference during the day the scale will be signed, while the West Virginia fields are less agitated over the movement than any other state in the soft coal region, and the miners were apparently disinterested. They will, however, in this field receive the advance.

At Johnstown, where trouble was looked for because of the holiday, the demonstration that had been planned by the miners was carried out without a clash.

The greatest celebration of the holiday was at Charleroi. Here 3,000 miners, augmented by other labor unions, paraded. The town was in festive attire.

COMPLETE SUSPENSION.

Mines in the Anthracite Region Are Closed Down.

Philadelphia, April 3.—There was a complete suspension of mining operations in the anthracite region during the day in accordance with the order issued last week by President Mitchell of the mine workers and the scale committee of that organization, with the solitary exception of the Oxford colliery, a small independent operation near Scranton, which employs about 500 hands with a daily capacity of about 1,200 tons. This mine was kept in operation during the strike of 1902. Every colliery was opened as usual, and in readiness for the workers, but there was no response to the blowing of the whistles other than the appearance of the engineers, firemen, pumpmen and others whose presence at the mines is necessary to preserve them from injury and who were exempted in President Mitchell's order.

The action of the miners occasioned no surprise on the part of the operators, who, while they offered work and protection to any who might desire to go into the mines, did not anticipate the acceptance of their offer.

The fact that most of the mine workers when they left the mines on Saturday took their working materials with them was indicative of their intention to remain away from the collieries until ordered to return by President Mitchell. The best of feeling between operators and miners is reported from all sections, and the hope that a satisfactory agreement may be reached at the conference in New York during the day is expressed on both sides.

Significance is attached by the miners to the fact that there is no apparent attempt on the part of the operators to import nonunion labor, which they regard as a favorable sign.

The miners' leaders are careful to assert that no strike has been declared, the suspension, they claim, being merely a business necessity, as the miners have no arrangement with the operators until the scale is adjusted by the committee.

During the day in several of the districts groups of men picketed the approaches to the collieries, but their presence was unnecessary. In the vicinity of Scranton most of the washeries were operated during the day and it is said more will be worked in various sections hereafter. The washeries produce only steam sizes from coal already run through the breakers and screened, and it is not likely that there will be any opposition from the miners to the operation of these washeries, as their production is considered by them insignificant.

There are 400 collieries in the anthracite region, employing 160,000 men and boys.

The only disturbance that marked the closing of the mines occurred at Moosic, a small town near Scranton, where John Shepherd, a civil engineer at the Consolidated colliery of the Pennsylvania Coal company, was shot in the hip by Anthony Coplosk, a mine worker. Coplosk had an argument with a mine guard during which he shot at the latter. The bullet went wild and struck Shepherd, who was standing near by.

SITUATION IS UNCHANGED.

Nothing New Reported From the Hard Coal Fields.

New York, April 3.—The eve of the second meeting of the committees representing the United Mine Workers and their employers finds the situation, so far as the hard coal fields are concerned, unchanged from that disclosed in the communications that have passed between the contending forces and which have been made public. Neither miner nor operator will venture a prediction as to the outcome. Both sides are hopeful so far, and there is a feeling among those vitally interested in the struggle that some way out of the present difficulty will be found. This feeling is based on the fact that each side has only played its first card, and that the real negotiations have not yet begun.

President Mitchell arrived here at night from Indianapolis and established himself at the Ashland House.

It was the expectation of Mr. Mitchell to call the district presidents and secretaries together during the evening for a last conference prior to meeting with the operators, but it was decided to delay the conference until morning, when it is expected all members will be present.

None of the district leaders would be quoted as to the situation as shown by the first day's suspension, but privately they admitted that rumors that thousands of men would not obey the suspension order have proved groundless.

They report that the only colliery running full handed is the People's Coal company's Oxford plant, in the Northern field, which is run almost absolutely by nonunion men. The washeries that were in operation during the day employ, the district leaders say, only a small number of men, and they are not well organized.

SITUATION IN THE SOUTHWEST.

Coal Miners of Three States and Two Territories Idle.

Kansas City, April 3.—All the coal mines of Kansas, Missouri, Arkansas, Indian Territory and Oklahoma are idle, the miners having struck for payment of the scale of 1903. These mines employ 25,000 men. It is expected that numerous operators will sign the scale soon, although none has done so yet.

Operators who have mines in more than one district must sign in all the districts before opening any mine.

The miners are in prosperous condition, having been employed steadily for a long time, and the best of feeling prevails between them and the operators.

The celebration of the eight-hour day anniversary was general throughout the Southwest and the miners turned out in large numbers. They look for the shutdown to be of short duration.

The first new agreements to be signed in this district were reported at night from Moberly, Mo., and Higginsville, Mo., where the miners are to receive the wage scale of 1903 plus three cents per ton for mine run coal. The contract has a life of two years.

Ordered to Leave Vladivostok.

## DEPOSITION OF DOWIE

HEAD OF THE CHRISTIAN CATHOLIC CHURCH OF ZION IS SHORN OF HIS POWER.

OVERSEER VOLIVA IN CHARGE

ALL THE REAL ESTATE HELD BY DOWIE IN ZION CITY TRANSFERRED TO A DEACON.

Chicago, April 3.—John Alexander Dowie, head of the "Christian Catholic Church of Zion," was during the day deposed as a religious leader, suspended from membership in the church he founded, shorn of his temporal possessions as far as they are located in Zion City, the home of his church, and warned to accept the situation quietly lest worse things befall him.

The active revolt against the leadership of Dowie was foreshadowed Sunday, when Overseer Voliva, who had been placed by Dowie in charge of the church, while he sought health in Jamaica and Mexico, announced that he would no longer accept the orders of Dowie, who had, he declared, grossly mismanaged the affairs of the church. The members of the church, including the wife and son of Dowie, agreed to stand with Voliva.

The first move looking to his overthrow was made early in the day by Overseer Voliva, who holds a power of attorney from Dowie. In company with several other officers of the church Voliva hastened to Waukegan, the county seat of Lake county, in which Zion City is situated, and filed for record a warranty deed transfer-

ring to Deacon Alexander Grainger all the real estate held by Dowie in Zion City. He also executed a bill of sale to Deacon Grainger, putting him in possession of all the property of Dowie, including his horses and carriages, books and even his bed. Later in the day Grainger conveyed these to Voliva, and at nightfall the overseer appointed by Dowie had not only succeeded Dowie as the head of the church, but was the holder of all of his property as well.

Dowie's project for the establishment of a colony in Mexico will be abandoned by the new administration of Zion City. Dowie will be given an allowance, according to advices from Zion City, sufficient to maintain a residence in Mexico if he so desires, or he will be received by the new officers of the church as a common citizen, should he elect to return and take up his residence in Zion City. No action under the criminal laws will be taken against him on account of the funds he is alleged to have wasted, nor will any civil action be brought to recover. If the deposed leader becomes obstreperous, however, it was said that his son Gladstone was prepared to make revolutions that would "startle the world."

THE SITUATION IN OHIO.

At Least Six Coal Companies Will Sign the Scale.

Columbus, O., April 3.—Notwithstanding the expressed determination of the majority of the Ohio coal operators not to grant an advance in wages to their miners, the prospects of averting a protracted strike in the Ohio fields seem decidedly more hopeful.

The policy to be pursued by the Ohio miners rests entirely with their executive board and President Green will urge at the meeting during the day that the question of signing contracts be referred to the state officers and the various local organizations.

Up to the present time six coal companies in Ohio have declared their willingness to pay the 1903 scale. A number of other operators have intimated that they will pay the 1903 scale.

MUNICIPAL OWNERSHIP.

Question to Be Decided by the Voters of Chicago.

Chicago, April 3.—The question of municipal ownership of Chicago street railways will be submitted to the popular vote during the day and the result is awaited with great interest. The contest has been one of the most bitter that has been waged in this city in many years, and it will be carried on during the day with even greater vigor than has been evidenced in the preliminary work of the campaign.

Members of the municipal ownership league have been detailed to remain at every polling place in the city to watch in the interests of the "little ballot," as the ticket bearing the three propositions relative to municipal ownership which are to be voted for, has been named. Representatives of factions opposed to municipal ownership will also have watchers in every precinct.

The usual party lines, which exist at an aldermanic election in this city, have been largely obliterated, and the eligibility of candidates is construed in the light of their attitude toward municipal ownership and a high license for saloons.

The advocates of municipal ownership express the utmost confidence in the result, declaring that the voters of Chicago will favor it by an overwhelming majority.

DYNAMITE UNDER A BUILDING.

Witchman Confesses That He Put It There.

Cleveland, April 3.—The Leader says enough dynamite was found under a hoisting engine in the Taylor arcade in Euclid avenue during the day to wreck that building, as well as a half dozen others which cluster about it.

Hurney Claypool, a night watchman in the employ of the American Bridge company, found the dynamite and later confessed to detectives that he placed the dynamite where it was found, because five of his fellow watchmen had been discharged.

## NO STRIKE OF MINERS

THOSE IN THE PITTSBURG DIS-  
TRICT WILL CONTINUE TO  
DO THEIR WORK.

HAVE SIGNED WAGE SCALE

SEVERAL COAL MINING COMPA-  
NIES AGREE TO PAY AD-  
VANCE DEMANDED.

Pittsburg, April 3.—There will be  
no strike of the bituminous miners in  
the Pittsburg district, and, according  
to Francis L. Robbins of the Pitts-  
burg Coal company, there will be a  
general resumption of work in the  
morning, following the holiday cele-  
bration of the eight-hour day. Mr.  
Robbins officially announced at night  
that he had signed the scale of 1903,  
and among the other signers were the  
Monongahela River Consolidated Coal  
and Coke company, the Ellsworth Coal  
company, the Crescent Coal company,  
the Mifflin Coal company, the People's  
Coal company, the Marine Coal com-  
pany, the Steam Coal company, the  
Vesta Coal company, the Dilworth  
Coal company, and the Mansfield Coal  
and Coke company. These companies  
represent 30,000,000 tons, or over  
three-quarters of the coal mined in  
the Pittsburg district.

The scale was signed for the miners  
by William Dodds, Frank Feehan, F.  
P. Hannoway and William Little, the  
committee appointed by the district  
convention.

While the operators and the miners'  
committee were in session during the  
day it was reported that Patrick Dolan  
would raise the question of validity of  
the scale, and that as a measure of  
precaution, Mr. Robbins would sign  
two scales identical in their provisions.  
Mr. Robbins said that but one scale  
would be signed by anyone, and that  
was the one signed during the day,  
presented by the committee, which the  
operators recognized as an officially  
appointed committee.

Refuse to Sign the Scale.

The mines of the independent opera-  
tors will be shut down during the day  
in the Pittsburg district in conjunc-  
tion with those in Ohio, Indiana and  
Illinois. The independent operators  
met in this city at night and at 10:30  
adjourned after passing a resolution  
to support the operators of the fore-  
named states in refusing to sign the  
scale.

The independent operators an-  
nounced that their mines would not be  
operated during the day under any  
consideration and that under no cir-  
cumstances would the mines be run as  
nonunion plants.

In other districts throughout West-  
ern Pennsylvania the situation was  
about as pacific as that in the Pitts-  
burg district. Beaver county opera-  
tors have signed the scale; the indica-  
tions from the Clearfield district are  
that when the miners meet the opera-  
tors in joint conference during the day  
the scale will be signed, while the  
West Virginia fields are less agitated  
over the movement than any other  
state in the soft coal region, and the  
miners were apparently disinterested.  
They will, however, in this field re-  
ceive the advance.

At Johnstown, where trouble was  
looked for because of the holiday, the  
demonstration that had been planned  
by the miners was carried out without  
a clash.

The greatest celebration of the hol-  
iday was at Charleroi. Here 3,000 min-  
ers, augmented by other labor unions,  
paraded. The town was in festive at-  
tire.

COMPLETE SUSPENSION.

Mines in the Anthracite Region Are  
Closed Down.

Philadelphia, April 3.—There was a  
complete suspension of mining opera-  
tions in the anthracite region during  
the day in accordance with the order  
issued last week by President Mitchell  
of the mine workers and the scale com-  
mittee of that organization, with the  
solitary exception of the Oxford colli-  
ery, a small independent operation  
near Scranton, which employs about  
500 hands with a daily capacity of  
about 1,200 tons. This mine was kept  
in operation during the strike of 1902.  
Every colliery was opened as usual,  
and in readiness for the workers, but  
there was no response to the blowing  
of the whistles other than the appear-  
ance of the engineers, firemen, pump-  
men and others whose presence at  
the mines is necessary to preserve  
them from injury and who were  
exempted in President Mitchell's or-  
der.

The action of the miners occasioned  
no surprise on the part of the opera-  
tors, who, while they offered work  
and protection to any who might de-  
sire to go into the mines, did not an-  
ticipate the acceptance of their offer.

The fact that most of the mine work-  
ers when they left the mines on Satur-  
day took their working materials with  
them was indicative of their intention  
to remain away from the collieries un-  
til ordered to return by President  
Mitchell. The best of feeling between  
operators and miners is reported from  
all sections, and the hope that a satis-  
factory agreement may be reached at  
the conference in New York during  
the day is expressed on both sides.

Significance is attached by the min-  
ers to the fact that there is no ap-  
parent attempt on the part of the  
operators to import nonunion labor,  
which they regard as a favorable sign.

The miners' leaders are careful to  
assert that no strike has been de-  
clared, the suspension, they claim, be-  
ing merely a business necessity, as the  
miners have no arrangement with the  
operators until the scale is adjusted  
by the committee.

During the day in several of the dis-  
tricts groups of men picketed the ap-  
proaches to the collieries, but their  
presence was unnecessary. In the vi-  
cinity of Scranton most of the wash-  
eries were operated during the day  
and it is said more will be worked in  
various sections hereafter. The wash-  
eries produce only steam sizes from  
coal already run through the breakers  
and screened, and it is not likely that  
there will be any opposition from the  
miners to the operation of these  
washeries, as their production is con-  
sidered by them insignificant.

There are 400 collieries in the an-  
thracite region, employing 160,000 men  
and boys.

The only disturbance that marked  
the closing of the mines occurred at  
Moosic, a small town near Scranton,  
where John Shepherd, a civil engineer  
at the Consolidated colliery of the  
Pennsylvania Coal company, was shot  
in the hip by Anthony Coplosk, a mine  
worker. Coplosk had an argument  
with a mine guard during which he  
shot at the latter. The bullet went  
wild and struck Shepherd, who was  
standing near by.

SITUATION IS UNCHANGED.

Nothing New Reported From the Hard  
Coal Fields.

New York, April 3.—The eve of the  
second meeting of the committees rep-  
resenting the United Mine Workers  
and their employers finds the situation,  
so far as the hard coal fields are con-  
cerned, unchanged from that disclosed  
in the communications that have  
passed between the contending forces  
and which have been made public.  
Neither miner nor operator will ven-  
ture a prediction as to the outcome.  
Both sides are hopeful so far, and  
there is a feeling among those vitally  
interested in the struggle that some  
way out of the present difficulty will  
be found. This feeling is based on the  
fact that each side has only played  
its first card, and that the real nego-  
tiations have not yet begun.

President Mitchell arrived here at  
night from Indianapolis and estab-  
lished himself at the Ashland House.

It was the expectation of Mr. Mit-  
chell to call the district presidents and  
secretaries together during the even-  
ing for a last conference prior to  
meeting with the operators, but it was  
decided to delay the conference until  
morning, when it is expected all mem-  
bers will be present.

None of the district leaders would  
be quoted as to the situation as shown  
by the first day's suspension, but pri-  
vately they admitted that rumors that  
thousands of men would not obey the  
suspension order have proved ground-  
less.

They report that the only colliery  
running full handed is the Peoples'  
Coal company's Oxford plant, in the  
Northern field, which is run almost ab-  
solutely by nonunion men. The wash-  
eries that were in operation during the  
day employ, the district leaders say,  
only a small number of men, and they  
are not well organized.

SITUATION IN THE SOUTHWEST.

Coal Miners of Three States and Two  
Territories Idle.

Kansas City, April 3.—All the coal  
mines of Kansas, Missouri, Arkansas,  
Indian Territory and Oklahoma are  
idle, the miners having struck for pay-  
ment of the scale of 1903. These  
mines employ 25,000 men. It is ex-  
pected that numerous operators will  
sign the scale soon, although none has  
done so yet.

Operators who have mines in more  
than one district must sign in all the  
districts before opening any mine.

The miners are in prosperous con-  
dition, having been employed steadily  
for a long time, and the best of feel-  
ing prevails between them and the  
operators.

The celebration of the eight-hour  
day anniversary was general through-  
out the Southwest and the miners  
turned out in large numbers. They  
look for the shutdown to be of short  
duration.

The first new agreements to be  
signed in this district were reported at  
night from Moberly, Mo., and Higgins-  
ville, Mo., where the miners are to re-  
ceive the wage scale of 1903 plus three  
cents per ton for mine run coal. The  
contract has a life of two years.

## DEPOSITION OF DOWIE

HEAD OF THE CHRISTIAN CATH-  
OLIC CHURCH OF ZION IS  
SHORN OF HIS POWER.

OVERSEER VOLIVA IN CHARGE

ALL THE REAL ESTATE HELD BY  
DOWIE IN ZION CITY TRANS-  
FERRED TO A DEACON.

Chicago, April 3.—John Alexander  
Dowie, head of the "Christian Catholic  
Church of Zion," was during the day  
deposed as a religious leader, suspend-  
ed from membership in the church he  
founded, shorn of his temporal posses-  
sions as far as they are located in  
Zion City, the home of his church, and  
warned to accept the situation quietly  
lest worse things befall him.

The active revolt against the leader-  
ship of Dowie was foreshadowed Sun-  
day, when Overseer Voliva, who had  
been placed by Dowie in charge of the  
church, while he sought health in Ja-  
maica and Mexico, announced that he  
would no longer accept the orders of  
Dowie, who had, he declared, grossly  
mismanaged the affairs of the church.  
The members of the church, including  
the wife and son of Dowie, agreed to  
stand with Voliva.

The first move looking to his over-  
throw was made early in the day by  
Overseer Voliva, who holds a power of  
attorney from Dowie. In company

ring to Deacon Alexander Grainger all  
the real estate held by Dowie in Zion  
City. He also executed a bill of sale  
to Deacon Grainger, putting him in  
possession of all the property of  
Dowie, including his horses and car-  
riages, books and even his bed. Later  
in the day Grainger conveyed these to  
Voliva, and at nightfall the overseer  
appointed by Dowie had not only suc-  
ceeded Dowie as the head of the  
church, but was the holder of all of his  
property as well.

Dowie's project for the establish-  
ment of a colony in Mexico will be  
abandoned by the new administration  
of Zion City. Dowie will be given an  
allowance, according to advices from  
Zion City, sufficient to maintain a  
residence in Mexico if he so desires, or  
he will be received by the new officers  
of the church as a common citizen,  
should he elect to return and take up  
his residence in Zion City. No action  
under the criminal laws will be taken  
against him on account of the funds he  
is alleged to have wasted, nor will any  
civil action be brought to recover. If  
the deposed leader becomes ob-  
streperous, however, it was said that  
his son Gladstone was prepared to  
make revelations that would "startle  
the world."

THE SITUATION IN OHIO.

At Least Six Coal Companies Will  
Sign the Scale.

Columbus, O., April 3.—Notwith-  
standing the expressed determination  
of the majority of the Ohio coal opera-  
tors not to grant an advance in wages  
to their miners, the prospects of aver-  
ting a protracted strike in the Ohio  
fields seem decidedly more hopeful.

The policy to be pursued by the Ohio  
miners rests entirely with their execu-  
tive board and President Green will  
urge at the meeting during the day  
that the question of signing contracts  
be referred to the state officers and  
the various local organizations.

Up to the present time six coal com-  
panies in Ohio have declared their  
willingness to pay the 1903 scale. A  
number of other operators have inti-  
mated that they will pay the 1903  
scale.

MUNICIPAL OWNERSHIP.

Question to Be Decided by the Voters  
of Chicago.

Chicago, April 3.—The question of  
municipal ownership of Chicago street  
railways will be submitted to the popu-  
lar vote during the day and the result  
is awaited with great interest. The  
contest has been one of the most bit-  
ter that has been waged in this city in  
many years, and it will be carried on  
during the day with even greater vigor  
than has been evidenced in the pre-  
liminary work of the campaign.

Members of the municipal ownership  
league have been detailed to remain  
at every polling place in the city to  
watch in the interests of the "little  
ballot," as the ticket bearing the  
three propositions relative to munici-  
pal ownership which are to be voted  
for, has been named. Representatives  
of factions opposed to municipal  
ownership will also have watchers in  
every precinct.

The usual party lines, which exist  
at an aldermanic election in this city,  
have been largely obliterated, and the  
eligibility of candidates is construed  
in the light of their attitude toward  
municipal ownership and a high li-  
cense for saloons.

The advocates of municipal own-  
ership express the utmost confidence in  
the result, declaring that the voters of  
Chicago will favor it by an over-  
whelming majority.

DYNAMITE UNDER A BUILDING.

Witchman Confesses That He Put It  
There.

Cleveland, April 3.—The Leader  
says enough dynamite was found un-  
der a hoisting engine in the Taylor  
arcade in Euclid avenue during the  
day to wreck that building, as well as  
a half dozen others which cluster  
about it.

Hurney Claypool, a night watchman  
in the employ of the American Bridge  
company, found the dynamite and later  
confessed to detectives that he placed  
the dynamite where it was found, be-  
cause five of his fellow watchmen had  
been discharged.

DULUTH GETS CONVENTION

SPECIAL TO THE DAILY DISPATCH:  
St. Paul, April 3, 2 p. m.—The republican state committee today fixed Wednesday, June 13, as the date for the state convention. Duluth was chosen as the convention city, securing a majority on the first ballot. County conventions will be held June 6, and it was recommended that caucuses be held June 2nd. The representation at the state convention will be based on the average vote cast for its last state ticket from governor down, one delegate being allowed each 250 votes, and five delegates at large from each county. The committee meeting was entirely harmonious.

Mrs. Chadbourn and little one, who have been making an extended visit with her parents, Mr. and Mrs. F. E. Low, left today to join Mr. Chadbourn, at Syracuse, N. Y.

The funeral of Edward Findley, who died yesterday morning will be held at St. Francis' church tomorrow morning at 9 o'clock. Short services will be held at the house at 8.30.

Mrs. W. I. Stager, of Hope, N. D., who has been visiting her mother, Mrs. R. Hamilton for some weeks, left for Park Rapids today to visit a sister a short time before going to her home.

Clarence Converse, foreman on Dr. Camp's farm at Mission, was united in marriage to Miss Edna E. Morris, of Ossipee, in this city yesterday. Rev. H. W. Knowles performing the ceremony.

J. M. Glunt has received a dispatch bringing news of the death of Mrs. Glunt's mother, at Council Bluffs, Iowa. Mrs. Glunt is now at Spokane, Wash. Mr. Glunt may go to Council Bluffs to attend the funeral.

There were eleven births and four deaths in Brainerd during the month of March according to reports to the city board of health. At least two of the deaths were at the hospitals and of parties who came here sick.

Attorney Blewett and Fleming and A. V. Snyder were in Duluth yesterday attending the hearing in the Snyder bankruptcy proceedings. The referee appointed Judge S. F. Alderman as trustee. Mr. Alderman was undecided as to accepting when seen by a Dispatch representative, but thought he would probably do so.

BOTH WERE CURED.

SOME INTERNAL REFORMS.  
Desired in Morocco by Delegates at Algiciras.  
Algiciras, Spain, April 3.—The day's sitting of the conference on Moroccan reforms, though primarily devoted to the framing of the protocol, assumed importance owing to various delegates moving resolutions directing the attention of the sultan of Morocco to the necessity of internal reforms. Mr. White, the chief of the American delegation, with the support of the Duke of Almodovar of Spain, president of the conference, directed attention to the unfavorable situation of Jews in Morocco.

Sir Arthur Nicolson, the British delegate, advocated the abolition of slavery in Morocco. Herr von Radowitz, the principal German delegate, made an appeal for the establishment of lighthouses on the coasts. Count Bolista-Kozlebrodzki, the second Austrian delegate, urged the importance of the publication of commercial statistics of the country. The construction of railways was advocated by the Duke of Almodovar.

The conference requested the Italian minister to Morocco, Signor Malmusi, to proceed to Fez and communicate to the sultan the fact that the conclusions reached by the delegates have been unanimously approved.

The revised text of the agreement probably will be signed on Saturday.

WAS VERY LARGE FUNERAL

Many People Paid Last Respects to the Honor of the Late Mrs. W. H. Meekins Today

One of the largest congregations that has gathered in St. Francis' church for a long time gathered this morning called together to pay a last tribute to all that was mortal of Mrs. W. H. Meekins. The Rosary and Altar societies escorted the body to the church and formed in lines between which the coffin was carried to the front of the church. At the church door about forty members of the Boiler Makers' union, of which Mr. Meekins is a member were lined up at the church door and escorted the body from the church to its final resting place.

The floral offerings were many and the last rites of the church were spoken by Father Lynch, for many years Mrs. Meekins' pastor.

No More Rice or Old Shoes.

It looks as if the marriage globe of India may find adherents among America's novelty loving families, says the New York Press. At all events it was started rolling in the Waldorf-Astoria hotel in New York the other morning when Mrs. Edward Addison Greeley talked to Causerie women of "India, the Gold Pit of the World," and displayed many beautiful brasses of Indian workmanship. Among these treasures was a sphere almost a foot in diameter and made of glass almost covered with a beautiful design in brass scroll work. Inside of this ball is a little lamp, which is supposed to be lighted when it is rolled after a bride setting out on her wedding journey, for in India it appears one's kindly feelings toward her are expressed other than by a shower of rice or a storm of old shoes. At the Causerie the mother of a debutante who will soon step to the altar was so captivated by the artistry and sentiment of this Indian product that she persuaded the woman in charge of these treasures to sell it to her, and she purposes to put it to use the day of her daughter's wedding.

TWO FIRES

LAST NIGHT

Electric Light Office in the Opera House Building was Badly Damaged

TWO HOUSES IN MILL DISTRICT

Chas. Besiar and M. O. Hervig Rendered Homeless by Fire Monday Night

The fire fiend and his assistants put in a busy night in Brainerd. About 10 o'clock Monday night the home of Chas. Besiar, on Mill street was found to be on fire. Mr. and Mrs. Besiar were out to spend the evening and had left no light nor had there been fire in the house for some time. When the fire was discovered the building was past saving and M. O. Hervig's large two story residence standing only a few feet to the south was soon ablaze. No portion of the contents of the Besiar place were saved, and both buildings were totally destroyed.

The loss on the Besiar place is estimated at \$400 on the building and \$400 on household goods. \$40 in money was burned. The Hervig house cost probably \$1,500 with \$700 loss on household goods. Mr. Besiar had \$225 insurance on building and \$25 on household goods. Mr. Hervig carried \$800 on his house and \$400 on the contents.

About 1 o'clock an alarm was turned in from Front street and the rooms in the basement of the opera house block occupied by the city electric light office were found afire. The supply room was gutted, inflicting a loss of about \$1,000 on the city and \$1,200 to \$1,500 on the opera house. The fire was subdued only after severe work.

Insurance in the Mill district fire was carried by A. P. Riggs, while Keene & McFadden had \$700 insurance on the supplies and \$7,500 on the opera house. The damage to the opera house is not such as to interfere in the least with the presentation of "Yon Yonson" tonight.

The origin of both fires is mysterious. In neither case had there been any fire in the buildings. The theory of defecting wiring has been brought forward as to the opera house, but Supt. Peterson states that there were no wires in that part of the building where the fire started carrying current at the time, all being cut out by a switch. When Mr. Peterson and Peter Christenson left the building after the council meeting that night they locked the doors as usual, but it is reported that the building was found open when the firemen got there.

Foot Ball Party

Rev. E. A. Allin entertained the young men of his church with a foot ball party last evening which proved very interesting to the 21 young men present at the home of Mrs. Pollet, 4th street north, where Mr. Allin rooms. There were four teams that played, they were captained by Prof. Martin, Prof. Santee, Howard Ingersoll and Carl Wright. The championship game was played between Martin's and Santee's teams. The final score being 24 to 18 in favor of the Martin team. Music and refreshments were also enjoyed and the young men went home feeling that they had had a big time, wishing the Reverend gentleman a prosperous future.

J. M. Glunt has received a dispatch bringing news of the death of Mrs. Glunt's mother, at Council Bluffs, Iowa. Mrs. Glunt is now at Spokane, Wash. Mr. Glunt may go to Council Bluffs to attend the funeral.

There were eleven births and four deaths in Brainerd during the month of March according to reports to the city board of health. At least two of the deaths were at the hospitals and of parties who came here sick.

Attorneys Blewett and Fleming and A. V. Snyder were in Duluth yesterday attending the hearing in the Snyder bankruptcy proceedings. The referee appointed Judge S. F. Alderman as trustee. Mr. Alderman was undecided as to accepting when seen by a Dispatch representative, but thought he would probably do so.

### SOME INTERNAL REFORMS.

Desired in Morocco by Delegates at Algieras.

Algieras, Spain, April 3.—The day's sitting of the conference on Moroccan reforms, though primarily devoted to the framing of the protocol, assumed importance owing to various delegates moving resolutions directing the attention of the sultan of Morocco to the necessity of internal reforms. Mr. White, the chief of the American delegation, with the support of the Duke of Almodovar of Spain, president of the conference, directed attention to the unfavorable situation of Jews in Morocco.

Sir Arthur Nicolson, the British delegate, advocated the abolition of slavery in Morocco. Herr von Radowitz, the principal German delegate, made an appeal for the establishment of lighthouses on the coasts. Count Bolest-Kozlebrodzki, the second Austrian delegate, urged the importance of the publication of commercial statistics of the country. The construction of railways was advocated by the Duke of Almodovar.

The conference requested the Italian minister to Morocco, Signor Malmusi, to proceed to Fez and communicate to the sultan the fact that the conclusions reached by the delegates have been unanimously approved.

The revised text of the agreement probably will be signed on Saturday.

## WAS VERY LARGE FUNERAL

Many People Paid Last Respects to the Honor of the Late Mrs. W. H. Meekins Today

One of the largest congregations that has gathered in St. Francis' church for a long time gathered this morning called together to pay a last tribute to all that was mortal of Mrs. W. H. Meekins.

The Rosary and Altar societies escorted the body to the church and formed in lines between which the coffin was carried to the front of the church. At the church door about forty members of the Boiler Makers' union, of which Mr. Meekins is a member were lined up at the church door and escorted the body from the church to its final resting place.

The floral offerings were many and the last rites of the church were spoken by Father Lynch, for many years Mrs. Meekins' pastor.

### No More Rice or Old Shoes.

It looks as if the marriage globe of India may find adherents among America's novelty loving families, says the New York Press. At all events it was started rolling in the Waldorf-Astoria hotel in New York the other morning when Mrs. Edward Adison Greeley talked to Causerie women of "India, the Gold Pit of the World," and displayed many beautiful brasses of Indian workmanship. Among these treasures was a sphere almost a foot in diameter and made of glass almost covered with a beautiful design in brass scroll work. Inside of this ball is a little lamp, which is supposed to be lighted when it is rolled after a bride setting out on her wedding journey, for in India it appears one's kindly feelings toward her are expressed other than by a shower of rice or a storm of old shoes. At the Causerie the mother of a debutante who will soon step to the altar was so captivated by the artistry and sentiment of this Indian product that she persuaded the woman in charge of these treasures to sell it to her, and she purposes to put it to use the day of her daughter's wedding.

## TWO FIRES

### LAST NIGHT

Electric Light Office in the Opera House Building was Badly Damaged

### TWO HOUSES IN MILL DISTRICT

Chas. Besar and M. O. Hervig Rendered Homeless by Fire Monday Night

The fire fiend and his assistants put in a busy night in Brainerd. About 10 o'clock Monday night the home of Chas. Besar, on Mill street was found to be on fire. Mr. and Mrs. Besar were out to spend the evening and had left no light nor had there been fire in the house for some time. When the fire was discovered the build was past saving and M. O. Hervig's large two story residence standing only a few feet to the south was soon ablaze. No portion of the contents of the Besar place were saved, and both buildings were totally destroyed.

The loss on the Besar place is estimated at \$400 on the building and \$400 on household goods. \$40 in money was burned. The Hervig house cost probably \$1,500 with \$700 loss on household goods. Mr. Besar had \$225 insurance on building and \$25 on household goods. Mr. Hervig carried \$800 on his house and \$400 on the contents.

About 1 o'clock an alarm was turned in from Front street and the rooms in the basement of the opera house block occupied by the city electric light office were found afire. The supply room was gutted, inflicting a loss of about \$1,000 on the city and \$1,200 to \$1,500 on the opera house. The fire was subdued only after severe work.

Insurance in the Mill district fire was carried by A. P. Riggs, while Keene & McFadden had \$700 insurance on the supplies and \$7,500 on the opera house.

The damage to the opera house is not such as to interfere in the least with the presentation of "Yon Yonson" tonight.

The origin of both fires is mysterious. In neither case had there been any fire in the buildings. The theory of defecting wiring has been brought forward as to the opera house, but Supt. Peterson states that there were no wires in that part of the building where the fire started carrying current at the time, all being cut out by a switch. When Mr. Peterson and Peter Christenson left the building after the council meeting that night they locked the doors as usual, but it is reported that the building was found open when the firemen got there.

### A YEAR OF INTENSE SUFFERING

### Foot Ball Party

Rev. E. A. Allin entertained the young men of his church with a foot ball party last evening which proved very interesting to the 21 young men present at the home of Mrs. Follet, 4th street north, where Mr. Allin rooms. There were four teams that played, they were captained by Prof. Martin, Prof. Santee, Howard Ingersoll and Carl Wright. The championship game was played between Martin's and Santee's teams. The final score being 24 to 18 in favor of the Martin team. Music and refreshments were also enjoyed and the young men went home feeling that they had had a big time, wishing the Reverend gentleman a prosperous future.

Little Out of Ordinary Doing at the Meeting of Board of Education

TEACHERS GIVEN DAY OFF

So that They Can Attend Educational Meeting in St. Cloud

April 20th

The meeting of the board of education Monday evening was very harmonious and everything passed off quietly. President Mahlum and Vice President Halladay were both absent when the meeting was called to order, and L. P. Johnson was chosen president pro tempore. After the usual reading and approval of minutes the report of Supt. Hartley on the book room was presented, read and approved. The building committee recommended that the services of Hans Anderson and the extra hire at the Lowell school be dispensed with, also that A. B. Anderson, of the Lincoln school, be allowed \$3.00 for extra help. Prof. Hartley asked permission for the use of the school buildings for the use of the school exhibit Friday and Saturday, April 6 and 7. The request was granted. An invitation was extended to the board to be present at the program on Friday evening and seats will be reserved for the members. Everybody is invited to this entertainment, admission free. Prof. Hamft requested that the teachers be given April 20 off, that they might attend the meeting of the Northern Minnesota Educational association which meets at St. Cloud on that date, which was granted. The monthly pay roll and numerous other bills were allowed. Moved and carried that the building committee be directed to look after the repairs necessary before Mr. Rowley be paid the balance due him. Meeting then adjourned. Cruiser shoes, Driving shoes, Farm shoes. A big assortment of all kinds at H. W. Linnemann's, 616 Front St.

MUSIC AND DRAMA.

"YON YONSON" TONIGHT

What the late J. K. Emmett was to plays written in German dialect, Earl K. Mitchell has become in the Swedish, Erickson was clever in the Swedish roles, Gus Heege was better, but Mr. Mitchell is pronounced as the best in his line in the world. Mr. Mitchell was educated in Sweden and has won fame in England and Continental Europe as well as in New York. He has a rich fund of spontaneous humor, has remarkable histrionic ability and no superiors as a musician. With these qualifications, the enterprising manager P. J. Kennedy became acquainted and lost no time in holding out inducements for a starring tour that secured his signature to a contract. He will be seen in this city at the head of a cast of carefully selected players in the perennial favorite "Yon Yonson," which will be seen at the opera house tonight. This great character play seems destined to go on forever, for now in its thirteenth year it is more popular than ever and is drawing crowded houses Regular \$1 scale.

ELECT NEW FIRE CHIEF

Council Was Tied on Formal Ballot for Chief of the Fire Department

MAYOR'S VOTE ELECTS JOHNSON

A. H. Bennett is Elected Building Inspector by a Vote of Seven to Three

The city council did business on the wholesale plan last night. Interest centered in the election of a chief of the fire department. There were two applicants, Chief Bennett and Assistant Chief P. M. Johnson. The informal ballot gave Mr. Bennett six votes and Mr. Johnson four, but on the formal ballot the vote stood five to five and Mayor O'Brien was called in to cast the decisive vote. His ballot was for P. M. Johnson and he was declared duly elected. The council then proceeded to elect Mr. Bennett building inspector, he receiving seven votes and Mr. Johnson three. Every member was in his place when President Johnson called the council to order. The report of the chief of the fire department for the month of March showed three fires. Two occurred on the 17th, one at the Spencer house West Brainerd, the other at the J. M. Gray barn. The third was at the Meekins' place, 209 Second avenue northeast on the 24th. The report of the street commissioner regarding the opening of the catch basins and other work done during the month of March was read and approved. The following pay rolls were approved: City Employees.....\$ 325 83 Electric Light Employees..... 380 75 Police..... 250 00 Fire Department..... 125 00 Fire department members attending fires..... 23 50 Street Employees..... 63 07 The usual grist of bills was allowed. The bill of L. W. Sherlund for repairs on furnace was referred to the purchasing committee with instructions to have same itemized. The bill of Chris Johnson for balance due on lateral sewers was allowed, to be paid out of the proper funds. The special committee to whom was referred the question of consolidating the offices of street commission and city engineer presented two reports. The majority report, against consolidation, was signed by Aldermen Halladay, Opsahl and Squires. The majority report, in favor of consolidation was signed by Aldermen Farrar and Armstrong. The matter of the crossing at the corner of Ninth and Fir was brought up by the city engineer, who stated that it had been in a dangerous condition ever since the cement walk was put in last fall. It was referred to the street committee with power to act. Alderman Twohey asked what had become of the report of Supt. Peterson on the electric light receipts. That report he understood was to answer the criticism of Mr. Ousdahl and others and he wanted to know why it had not been made, and if it was going to be made. Mr. Peterson stated that the report was not as yet complete. That a part of the loss was because those on flat rate abused the privilege; that the report would be completed and filed in a short time. The liquor bond of Theines & Hagan was not on motion approved and the license granted. In this connection City Attorney Mantor stated that he had been misled by the fact that the code passed at the 1905 session was superseded by the session laws of that session and that it was not necessary for the sureties to justify in the amount of \$4,000 each, but only in \$4,000 in the aggregate. The appointment of John McGivern to be chief of police vice E. H. Simmons was confirmed as was the appointment of G. G. Muzzy as patrolman vice McGivern promoted. J. R. Mutch and James Buley were elected drivers of the fire department without opposition. Chief of Police McGivern was elected member of the board of health to succeed Dr. Reimstad, whose term expires this spring. J. P. Barney was nominated for sanitary police by Dr. Thabes, chief health officer. Alderman Opsahl thought the street commissioner could do the work and save the city the expense of an extra man, but the council thought otherwise and confirmed the appointment. The salary was fixed at \$50 per month the understanding being that the appointment was for two months only. The attention of the council was called to the washout on Oak street between 10th street and the railroad track, also to the bridge on Seventh street south. The matter was referred to the street commissioner with power to act. Complaint was made that the catch basin on Sixth street south, near the city scales gave out a bad odor from sewer gas when the wind was in the east. The matter was referred to the sewer committee with power to act.

## ELECT NEW

### FIRE CHIEF

Council Was Tied on Formal Ballot for Chief of the Fire Department

#### MAYOR'S VOTE ELECTS JOHNSON

A. H. Bennett is Elected Building Inspector by a Vote of Seven to Three

The city council did business on the wholesale plan last night. Interest centered in the election of a chief of the fire department. There were two applicants, Chief Bennett and Assistant Chief P. M. Johnson. The informal ballot gave Mr. Bennett six votes and Mr. Johnson four, but on the formal ballot the vote stood five to five and Mayor O'Brien was called in to cast the decisive vote. His ballot was for P. M. Johnson and he was declared duly elected. The council then proceeded to elect Mr. Bennett building inspector, he receiving seven votes and Mr. Johnson three.

Every member was in his place when President Johnson called the council to order.

The report of the chief of the fire department for the month of March showed three fires. Two occurred on the 17th, one at the Spencer house West Brainerd, the other at the J. M. Gray barn. The third was at the Meekins' place, 209 Second avenue northeast on the 24th.

The report of the street commissioner regarding the opening of the catch basins and other work done during the month of March was read and approved.

The following pay rolls were approved:

City Employees	\$ 325 83
Electric Light Employees	380 75
Police	250 00
Fire Department	125 00
Fire department members attending fires	23 50
Street Employees	63 07

The usual grist of bills was allowed.

The bill of L. W. Sherlund for repairs on furnace was referred to the purchasing committee with instructions to have same itemized.

The bill of Chris Johnson for balance due on lateral sewers was allowed, to be paid out of the proper funds.

The special committee to whom was referred the question of consolidating the offices of street commission and city engineer presented two reports. The majority report, against consolidation, was signed by by Aldermen Halladay, Opsahl and Squires. The majority report, in favor of consolidation was signed by Aldermen Farrar and Armstrong.

The matter of the crossing at the corner of Ninth and Fir was brought up by the city engineer, who stated that it had been in a dangerous condition ever since the cement walk was put in last fall. It was referred to the street committee with power to act.

Alderman Twohey asked what had become of the report of Supt. Peterson on the electric light receipts. That report he understood was to answer the criticism of Mr. Ousdahl and others and he wanted to know why it had not been made, and if it was going to be made. Mr. Peterson stated that the report was not as yet complete. That a part of the loss was because those on flat rate abused the privilege; that the report would be completed and filed in a short time.

The liquor bond of Theines & Hagan was not on motion approved and the license granted. In this connection City Attorney Mantor stated that he had been misled by the fact that the code passed at the 1905 session was superseded by the session laws of that session and that it was not necessary for the sureties to justify in the amount of \$4,000 each, but only in \$4,000 in the aggregate.

The appointment of John McGivern to be chief of police vice E. H. Simmons was confirmed as was the appointment of G. G. Muzzy as patrolman vice McGivern promoted.

J. R. Mutch and James Buley were elected drivers of the fire department without opposition.

Chief of Police McGivern was elected member of the board of health to succeed Dr. Reimstad, whose term expires this spring.

J. P. Barney was nominated for sanitary police by Dr. Thabes, chief health officer. Alderman Opsahl thought the street commissioner could do the work and save the city the expense of an extra man, but the council thought otherwise and confirmed the appointment. The salary was fixed at \$50 per month the understanding being that the appointment was for two months only.

The attention of the council was called to the washout on Oak street between 10th street and the railroad track, also to the bridge on Seventh street south. The matter was referred to the street commissioner with power to act.

Complaint was made that the catch basin on Sixth street south, near the city scales gave out a bad odor from sewer gas when the wind was in the east. The matter was referred to the sewer committee with power to act.

New York, April 3.—After a pursuit of four weeks by the police of three cities, Central office detectives, aided by operatives of a private agency, and Detective Lawrence of Minneapolis, arrested Thomas J. Wainwright, describing himself as a lawyer of Boston, who is charged with robbing the residence of Dr. Nicholas J. Pinault of Minneapolis, of jewelry, silverware, pictures and securities to the value of \$100,000. The police say that Wainwright, who is twenty-eight years old and apparently a man of excellent education, is known by a dozen aliases and is one of the most accomplished criminals in the country.

Dr. Pinault is one of the wealthiest

citizens of Minneapolis and his home at No. 1106 Mount Curve avenue is one of the finest in the city. Dr. Pinault usually spends his winters in Europe or in the South. Just before starting for Pass Christian, Miss., last winter the doctor engaged as caretaker of his Minneapolis home a young man who said that he was Thomas J. Wainwright and that he was a lawyer temporarily out of practice. Wainwright's credentials were satisfactory and Dr. Pinault turned his mansion and its valuable contents over to him without hesitation. Then the Pinaults departed for the South.

Toward the end of last February Dr. Pinault was astonished to receive from his Minneapolis bankers a letter asking why it was that he wanted to sell certain valuable stocks and bonds that had just been offered through a Minneapolis firm of brokers. The doctor knew that he had left the securities safely locked up in his safe deposit vault and he started at once for Minneapolis to investigate. There he learned that his caretaker had disappeared and with him practically everything of value in the Pinault mansion, as well as the contents of the doctor's safe in the deposit vault. The list of valuables stolen

Included Diamonds, rubies, an immense quantity of silverware, many priceless antiques, among them a watch once owned by Cardinal Richelieu, costly laces and furs and several valuable oil paintings. Among the jewels was a diamond brooch valued at \$10,000, an antique diamond cross, a pearl antique cross, a bracelet set with diamonds and rubies and a pearl pendant. These last have all been located in New York, Minneapolis and Boston pawnshops.

The investigation disclosed the fact, according to the police, that after telegraphically stripping the Pinault mansion of such of its contents as he wanted, Wainwright forced Pinault's name to an order on the deposit company and thus gained access to the doctor's safe, where he abstracted such securities as he considered negotiable.

Then on March 2 he started for New York. But his trunks were traced to this city and later to Boston. The trunks were rechecked for this city, reaching here the second time on March 10, and Wainwright was discovered living at a fashionable boardinghouse here. He was seized by detectives at night as he came out of the house. On him was found a completely filled cartridge belt with two revolvers fastened around the waist. When told that he was wanted for the Minneapolis robbery, Wainwright exclaimed:

"Well, you got here just in time, I

## DISORDERS AT COAL MINE.

Reopening of Sealed Shaft in France Causes Trouble.

Lens, France, April 3.—There were violent scenes during the day at the reopening of the Courrieres coal mine pit No. 4, which has been hermetically closed since March 15 and which is supposed to contain 480 corpses of victims of the explosion of fire-damp. A report had spread that there were several of the entombed miners still living. Thousands of people gathered at the pit-mouth and threatened the descending engineers with death should they fail to rescue the survivors. Women broke through the line of soldiers and crowded to the mouth of the pit, declaring that they would search the mine themselves. The disorder forced the engineers to retire for the time being, but later gendarmes restored order and the rescue corps descended. They discovered no one living.

## Indicted for Murder.

Stockton, Cal., April 3.—The grand jury during the day indicted Mrs. Emma Ledoux for the murder of A. N. McVicar in this city on March 24.

## HIGGINS SIGNS MEASURE.

One Insurance Bill Has Become a Law.

Albany, N. Y., April 3.—The first of the ten bills proposed by the special investigating committee as the result of its investigation of life insurance conditions is now a law. Governor Higgins during the afternoon affixed his signature to the bill which postpones until Nov. 15 the annual elections of the New York Life, Mutual of New York, Mutual Reserve of New York, and Security Mutual of Birmingham—the four purely mutual life insurance companies incorporated under the laws of this state. It does not affect the Equitable Life Assurance society, which is a stock company. In signing the bill the governor issued a memorandum sharply criticizing the directors, whom he thus legislated from office.

One of the most important effects of the act is that it invalidates every proxy hitherto secured, whether by the companies themselves, by Thomas W. Lawson of Boston or anyone else.

The assembly advanced to third reading six others of the ten bills originally introduced; the three penal code amendments relative to perjury and falsification of records and entries and to rebating, the legislative law amendments which would require the registry with the secretary of state of all corporation legislative agents and fees paid them, and the corporation law amendments forbidding campaign contributions by corporations and relative to acquisition of real property.

The remaining bills, which were consolidated and amended by the committee, could not be reached in either house, even on second reading, during the day, and could not be passed before Thursday in any case without an "emergency" message from the governor.

## Anti-Pass Bill Virtually a Law.

Des Moines, Ia., April 3.—The anti-pass bill is now virtually a law, or will be as soon as Governor Cummins can affix his signature to the measure. The house by a vote of 73 to 11 receded from the amendment that would have required legislators to pay their fares home and the bill is now ready to go to the governor. It prohibits all public officials, including federal officers, from accepting favors from the railroads.

## JAMES J. HILL'S NEW LINE.

Railroad Magnate Plans New Road in Canada.

Montreal, April 3.—The invasion of Canadian territory by James J. Hill's railway system, concerning which many conjectures and rumors have been rife for some years, has begun in earnest. According to lines now under construction, routes surveyed and projects now under consideration, the Great Northern, in the near future, will be as important a factor in the British possessions and play as important a part in their development as it has in the Northwest south of the international boundary line.

Mr. Hill is not satisfied with having one transcontinental line, but needs two, traversing expanses of territories over which the two governments hold domain. Within a short time he will have an east and west line in the Canadian Northwest, almost parallel to the Great Northern on the United States side. This parallelism on such a huge scale is something unique in railroad enterprise and daring in its conception.

Mr. Hill's proposed road will run from Vancouver, B. C., to Winnipeg, Man.

## FATAL AUTOMOBILE ACCIDENT.

Philadelphia Man Killed and His Wife Fatally Injured.

Philadelphia, April 3.—While riding in an automobile through Harvard, a suburb, during the day E. O. Gowing, a member of the firm of Adams Bros. & Co., wholesale meat dealers of this city, was killed and his wife was so seriously injured that her death is expected. Mr. Gowing failed to observe a rope that had been stretched across the road near a building operation. The rope tore the glass shield of the automobile from its fastenings, starting Mr. Gowing, who in manipulating the steering gear, caused the machine to swerve. It crashed into a telegraph pole and was upset, crushing its occupants. Mr. Gowing died in a few minutes. His wife is unconscious at a hospital with concussion of the brain and internal injuries. Mr. Gowing was formerly Philadelphia manager for Swift & Co.

## Fire in a Newspaper Office.

Buffalo, N. Y., April 3.—A fire broke out on the second floor of the office of the Buffalo Times, an afternoon paper, during the morning, and spreading quickly gained possession of the building. At 3 o'clock the fire was under control. The flames were confined to the Times building. The loss is estimated at \$150,000.

## Minnesota Bank Robbed.

Willmar, Minn., April 3.—Yeggmen blew the safe of the Kandiyohi bank early in the morning, obtaining \$1,750 in cash, and up to the present time are at large. A posse headed by the sheriff of Kandiyohi county is scouring the country about the town, and all suspicious characters will be picked up.

Most men are proportioned like one of these. Those who are discriminating know that the clothier who claims to fit every body is taking a long chance.

And the unfortunate thing about him is that he can sell to good dressers only during the season that his stock of clothing is in style.

We have no stock on hand to get rid of. We want to make up—expressly for you—a suit of clothes having character, distinctiveness and style—that will fit.

We most cordially invite you to inspect the Spring and Summer 1906 line of fabrics now on display.

ARREST WAINWRIGHT

NEW YORK CITY POLICE CAPTURE  
MAN WHO ROBBED A MINNE-  
APOLIS PHYSICIAN.

PROPERTY WAS VALUABLE

ALLEGED THIEF OBTAINED PLUN-  
DER WORTH HUNDRED THOU-  
SAND DOLLARS.

New York, April 3.—After a pursuit of four weeks by the police of three cities, Central office detectives, aided by operatives of a private agency, and Detective Lawrence of Minneapolis, arrested Thomas J. Wainwright, describing himself as a lawyer of Boston, who is charged with robbing the residence of Dr. Nicholas J. Pinault of Minneapolis, of jewelry, silverware, pictures and securities to the value of \$100,000. The police say that Wainwright, who is twenty-eight years old and apparently a man of excellent education, is known by a dozen aliases and is one of the most accomplished criminals in the country.

Dr. Pinault is one of the wealthiest

citizens of Minneapolis and his home at No. 1106 Mount Curve avenue is one of the finest in the city. Dr. Pinault usually spends his winters in Europe or in the South. Just before starting for Pass Christian, Miss., last winter the doctor engaged as caretaker of his Minneapolis home a young man who said that he was Thomas J. Wainwright and that he was a lawyer temporarily out of practice. Wainwright's credentials were satisfactory and Dr. Pinault turned his mansion and its valuable contents over to him without hesitation. Then the Pinaults departed for the South.

Toward the end of last February Dr. Pinault was astonished to receive from his Minneapolis bankers a letter asking why it was that he wanted to sell certain valuable stocks and bonds that had just been offered through a Minneapolis firm of brokers. The doctor knew that he had left the securities safely locked up in his safe deposit vault and he started at once for Minneapolis to investigate. There he learned that his caretaker had disappeared and with him practically everything of value in the Pinault mansion, as well as the contents of the doctor's safe in the deposit vault. The list of valuables stolen

Included Diamonds,

rubies, an immense quantity of silverware, many priceless antiques, among them a watch once owned by Cardinal Richelieu, costly laces and furs and several valuable oil paintings. Among the jewels was a diamond brooch valued at \$10,000, an antique diamond cross, a pearl antique cross, a bracelet set with diamonds and rubies and a pearl pendant. These last have all been located in New York, Minneapolis and Boston pawnshops.

The investigation disclosed the fact, according to the police, that after leisurely stripping the Pinault mansion of such of its contents as he wanted, Wainwright forced Pinault's name to an order on the deposit company and thus gained access to the doctor's safe, where he abstracted such securities as he considered negotiable.

Then on March 2 he started for New York. But his trunks were traced to this city and later to Boston. The trunks were rechecked for this city, reaching here the second time on March 10, and Wainwright was discovered living at a fashionable boardinghouse here. He was seized by detectives at night as he came out of the house. On him was found a completely filled cartridge belt with two revolvers fastened around the waist. When told that he was wanted for the Minneapolis robbery, Wainwright exclaimed:

"Well, you got here just in time. I

DISORDERS AT COAL MINE.

Reopening of Sealed Shaft in France Causes Trouble.

Lens, France, April 3.—There were violent scenes during the day at the reopening of the Courrieres coal mine pit No. 4, which has been hermetically closed since March 15 and which is supposed to contain 480 corpses of victims of the explosion of fire-damp. A report had spread that there were several of the entombed miners still living. Thousands of people gathered at the pit-mouth and threatened the descending engineers with death should they fail to rescue the survivors. Women broke through the line of soldiers and crowded to the mouth of the pit, declaring that they would search the mine themselves. The disorder forced the engineers to retire for the time being, but later gendarmes restored order and the rescue corps descended. They discovered no one living.

Indicted for Murder.

Stockton, Cal., April 3.—The grand jury during the day indicted Mrs. Emma Ledoux for the murder of A. N. McVicar in this city on March 24.

HIGGINS SIGNS MEASURE.

One Insurance Bill Has Become a Law.

Albany, N. Y., April 3.—The first of the ten bills proposed by the special investigating committee as the result of its investigation of life insurance conditions is now a law. Governor Higgins during the afternoon affixed his signature to the bill which postpones until Nov. 15 the annual elections of the New York Life, Mutual of New York, Mutual Reserve of New York, and Security Mutual of Binghamton—the four purely mutual life insurance companies incorporated under the laws of this state. It does not affect the Equitable Life Assurance society, which is a stock company. In signing the bill the governor issued a memorandum sharply criticizing the directors, whom he thus legislated from office.

One of the most important effects of the act is that it invalidates every proxy hitherto secured, whether by the companies themselves, by Thomas W. Lawson of Boston or anyone else.

The assembly advanced to third reading six others of the ten bills originally introduced; the three penal code amendments relative to perjury and falsification of records and entries and to rebating, the legislative law amendments which would require the registry with the secretary of state of all corporation legislative agents and fees paid them, and the corporation law amendments forbidding campaign contributions by corporations and relative to acquisition of real property.

The remaining bills, which were consolidated and amended by the committee, could not be reached in either house, even on second reading, during the day, and could not be passed before Thursday in any case without an "emergency" message from the governor.

Anti-Pass Bill Virtually a Law.

Des Moines, Ia., April 3.—The anti pass bill is now virtually a law, or will be as soon as Governor Cummins can affix his signature to the measure. The house by a vote of 73 to 11 receded from the amendment that would have required legislators to pay their fares home and the bill is now ready to go to the governor. It prohibits all public officials, including federal officers, from accepting favors from the railroads.

JAMES J. HILL'S NEW LINE.

Railroad Magnate Plans New Road in Canada.

Montreal, April 3.—The invasion of Canadian territory by James J. Hill's railway system, concerning which many conjectures and rumors have been rife for some years, has begun in earnest. According to lines now under construction, routes surveyed and projects now under consideration, the Great Northern, in the near future, will be as important a factor in the British possessions and play as important a part in their development as it has in the Northwest south of the international boundary line.

Mr. Hill is not satisfied with having one transcontinental line, but needs two, traversing expanses of territories over which the two governments hold domain. Within a short time he will have an east and west line in the Canadian Northwest, almost parallel to the Great Northern on the United States side. This parallelism on such a huge scale is something unique in railroad enterprise and daring in its conception.

Mr. Hill's proposed road will run from Vancouver, B. C., to Winnipeg, Man.

FATAL AUTOMOBILE ACCIDENT.

Philadelphia Man Killed and His Wife Fatally Injured.

Philadelphia, April 3.—While riding in an automobile through Harvard, a suburb, during the day E. O. Gowing, a member of the firm of Adams Bros. & Co., wholesale meat dealers of this city, was killed and his wife was so seriously injured that her death is expected. Mr. Gowing failed to observe a rope that had been stretched across the road near a building operation. The rope tore the glass shield of the automobile from its fastenings, starting Mr. Gowing, who in manipulating the steering gear, caused the machine to swerve. It crashed into a telegraph pole and was upset, crushing its occupants. Mr. Gowing died in a few minutes. His wife is unconscious at a hospital with concussion of the brain and internal injuries. Mr. Gowing was formerly Philadelphia manager for Swift & Co.

Fire in a Newspaper Office.

Buffalo, N. Y., April 3.—A fire broke out on the second floor of the office of the Buffalo Times, an afternoon paper, during the morning, and spreading quickly gained possession of the building. At 3 o'clock the fire was under control. The flames were confined to the Times building. The loss is estimated at \$150,000.

Minnesota Bank Robbed.

Willmar, Minn., April 3.—Yeggmen blew the safe of the Kandiyohi bank early in the morning, obtaining \$1,750 in cash, and up to the present time are at large. A posse headed by the sheriff of Kandiyohi county is scouring the country about the town, and all suspicious characters will be picked up.

Serious Shooting Affray.

Springfield, Ill., April 3.—In a shooting affray in a saloon at Diverson during the afternoon, Steve Fipof shot and probably seriously wounded Thomas Culosh of Sherman and injured Frank Barto and Andy Phio. Fipof was arrested.
